7 Reasons To Boost CATIA With Cloud Services

Below are seven reasons why CATIA V5 users are connecting to the **3D**EXPERIENCE® platform:

1 **SHARE DESIGNS EASILY, EVEN FROM YOUR HOME OFFICE**

For greater visibility on your work, share your CATIA V5 designs with anyone, anywhere and at any time on any web-enabled device.

2 **COLLABORATE MORE EFFECTIVELY**

Deliver greater innovations with a truly collaborative design process. Regardless of location, you can collaborate with every stakeholder during the digital mock-up process, even with non-CAD users.

3 **SUCCEED AT COMPLEX DESIGNS**

Enjoy a smooth engineering process workflow while designing without limits. Create high-quality and complex mechanical shapes.

4 **INSTALL, MAINTAIN AND SCALE EASILY**

Quickly install, add new roles and manage users without IT constraints or management costs.

5 **SECURE YOUR DATA AND YOUR BUSINESS POTENTIAL**

Comply with the cyber accreditations required by your clients, such as Trusted Information Security Assessment Exchange (TISAX) certification for the transportation and mobility sector.

6 **ENJOY A PRODUCTIVE USER EXPERIENCE**

The platform's lean and intuitive user interface is simple to navigate for new or casual users.

7 **EXPAND YOUR INNOVATION CAPABILITIES**

Continue to use CATIA V5 while accessing the powerful design capabilities of **3D**EXPERIENCE CATIA. For example, design your electrical wiring harness in **3D**EXPERIENCE CATIA on top of CATIA V5 structures or improve communication with reviews in virtual reality.
